Education

Datta Meghe College of Engineering (DMCE) CGPA: 8.41 (Sem 3–6) | Latest SGPI: 8.91
B.E. in Artificial Intelligence & Data Science – Final Year *Expected Graduation: 2027*

Saraswati Institute of Technology (SIOT) 86.81%
Diploma in Information Technology *Completed*

Experience

Forms Chroma – Founder (Solo) | Mumbai Sep 2026 – Present
- Own a design-first form builder (early access at formschroma.com) end to end as solo founder: problem definition, prioritization, UX, build, and launch.
- Shipped an AI feature that analyzes a website and generates an on-brand form; built a live-canvas editor with one-tap themes and one-toggle publishing.
- Delivered Google Sheets sync, webhooks, conditional steps, and email notifications for real user workflows; launched to 8 beta users.

Beevolve – Product & AI Engineering Intern | Remote Jul 2026 – Present
- Develop agentic AI workflows and Python services for a production AI SaaS platform: unified gateway, async processing, multi-tenant routing, and Pydantic schema guardrails against unsupported outputs.
- Optimized AI agent and data pipelines for 70% better performance (latency, Resources, Requests, Cost) by replacing n8n with custom-coded pipelines, and developing pricing/credit model for the product.
- Translate business requirements into PRDs, user stories with acceptance criteria, and process documentation; build feature prototypes and validate them with engineering.
- Run sprint alignment, Product Presentations, and stakeholder updates with founders and engineering in Scrum cycles; draw data-driven insights from usage, latency, and reliability metrics, and triage incidents with documented root causes.

IOFT – Java Instructor & Technical Mentor | Hybrid Jun 2025 – Aug 2025
- Delivered a three-month Java (OOP, DSA) and SQL curriculum to 15 students through hands-on sessions.
- Mentored learners through code reviews, Git/GitHub workflows, and debugging workshops.

ARVI Achievers – Operations & Analytics Intern | Remote Dec 2023 – Oct 2024
- Worked directly with founders to clarify requirements and turn them into documents and graphics for workshops and mentorship programs, driving 20% partnership growth and a 10% rise in prospective clients.
- Designed 10+ campaigns for various events, lifting registrations by 15%.
- Conducted market research; planned and hosted a corporate event for CEOs and industry professionals.

Projects

Recon Audit | *Python, FastAPI, SQLAlchemy, Pydantic, Gemini API* GitHub | PRD | Demo Video
- Authored a PRD, then built a FastAPI service reconciling orders, settlements, and bank credits (JSON/CSV/XML) via exact, windowed, and fuzzy matching, classifying six exception types.
- Added a Gemini agent that investigates exceptions via function-calling tools and abstains unless it can cite evidence; evaluated with precision, recall, and F1, with a SHA-256 hash-chained audit ledger.

Site Stream | *Python, SQL, MySQL, Pandas, SQLAlchemy, Streamlit* GitHub
- Built an ETL pipeline with Earned Value KPIs (schedule and cost variance) for data-driven risk rankings.
- Performed data analysis and Dashboard with visual representation of the analytics for stakeholders.

Skills & Competencies

Product & Analysis: PRD, SRS, User Stories, Market Research, Business Analysis, Documentation
Project Management: Stakeholder Management, Scrum, Sprint Planning, Cross-functional Collaboration
Data & Analytics: SQL, Python, Power BI, Excel, Data Analysis, KPI Tracking, Dashboards & Reporting
Engineering: Java, Python, SQL, FastAPI, REST APIs, MySQL, PostgreSQL, Git/GitHub, Agile/Scrum, Testing
Design & Architecture: UML, ER Diagrams, System Design
AI Readiness: Generative/Agentic AI, Function Calling, LLM Guardrails & Evaluation, AI-Assisted Coding
Soft Skills: Proactive Problem Solving, Collaborative Execution, Analytical Thinking, Communication, Presentation, Mentoring, Active Listening, Ownership, Continuous Learning

Certifications

Forage Job Simulations: Product Management, Deloitte Data Analytics

Amazon Web Services: AWS Cloud Practitioner
